I Hope They Know: The Essential Handbook on Alzheimer's Disease and Care, Virtualbookworm Publishing, 2008 by Dr. Zoë A. Lewis

www.zoealewis.com

"You can be sure that this book is appropriately included in our collection and resource lists moving forward."

-Alzheimer's Association, National Office, Dr. Peter Reed

"The book is a holistic reference that may help reduce symptoms and improve functioning and quality of life."

-National Hospice and Palliative Care Organization,
Dr. Lin Noyes Simon

"Wonderful! Should be in every household that deals with Alzheimer's Disease."

-Jacqueline Hertz, RG, GCM, Angel Care Management,
Miami, Florida

"It is a definite departure from the plethora of books on the subject of Alzheimer's and invites readers to look directly at what is possible to improve the quality of life."

- Dr. Facundo Manes, Professor of Behavioral Neurology and Cognitive Neuroscience at the Favaloro University, Buenos Aires, Argentina.

"This new book touches with sensitivity difficult topics, including: changes in sexuality, risky driving behavior, financial vulnerability, legal issues, and protection of personhood, medical ethics, and advance directives."

-The Journal of Gerontological Nursing

"Kudos to Dr. Zoë A. Lewis for including a chapter on music therapy in her book on Alzheimer's disease and for using world renowned Dr. Suzanne Hanser as the author."

-Professor Isabelle Frohne-Hagemann, co-founder of the Institute for Music, Imagery and Therapy (IMIT) in Berlin, Germany

"The book gifts the presentation of integrated healthcare that will become the standard of tomorrow."

-Dr. Isali Ben-Jacob, DOM, AP, Professor of Oriental Medicine, Atlantic Institute of Oriental Medicine, Miami Florida

"Skillfully combines medicine, art, science and a wide range of practical advice resulting in a thoughtful and thought provoking book."

-Barbara Bagan, Ph.D., ATRBC, Professor in Charge of Expressive Arts Therapy Ottawa University, Phoenix, Arizona

"There is no one book, or such a passionate care giver as Dr. Lewis. She knows the vast sweep of needs facing patients and families. Readers will find the essential resources her book is intended to provide – from the beginning of the disease through the final stages."

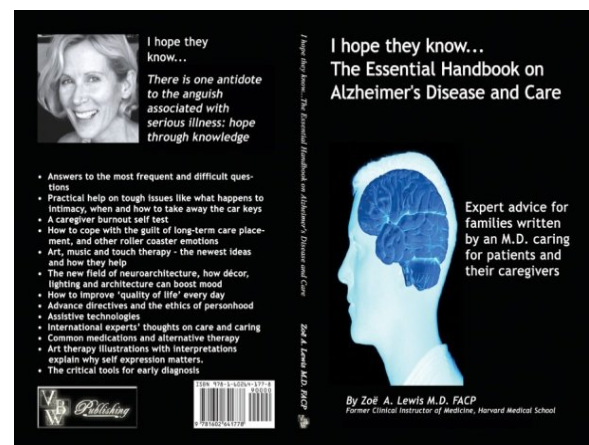

-Richard P. Singer M.D., FAAN, Neurologist and Alzheimer's disease Researcher, Sunrise, Florida

"As the caregiver for two parents with dementia, I found the book a delight and a comfort. Her work with dementia in the end-stages is amongst the most skillful I am aware of."

-Joseph Karpicz M.D., North Shore Medical Center, Salem, Massachusetts

"This book will lead the reader to a compassionate understanding of this population."

-Mary Kathleen Rose, author of 'Comfort Touch Massage for the Elderly and the Ill'

"Espero que sepan: La guía holística para la enfermedad de Alzheimer,"
Virtualbookworm Publishing, 2009, by Dr. Zoë A. Lewis
